REPAIR SYSTEM

all-in-one repair kit for fiberglass elements

The only fiberglass repair kit on the market that contains everything you need to get your work done quickly, efficiently and with no extra cost.

SET CONTAINS:

- roving fabric 300g, glass mat 300g and EDGE Protector. EDGE Protector is a unique product intended for strengthening the corners of composites, larger cracks, holes, etc.
- top quality resin, catalyst and acetone for cleaning.
- sandpaper for base preparation and Peel Ply fabric. Peel Ply fabric is placed as a final layer on the laminate and allows work to continue without additional sanding.
- measuring cup, plastic mixing stick, brush for resin application and protective gloves.
