kelteks Repair System

all-in-one repair kit for fiberglass elements

The only fiberglass repair kit on the market that contains everything you need to get your work done!

applications

- boat repair
- fiberglass repair
- car repairs
- motorcycle repairs
- glassfiber parts fabrications

Set Content:

- Set contains some of our premium products such as **kelteks Woven Roving** 300g, **kelteks Chopped Strand Mat** 300g, and **kelteks Edge Protector**, which is a unique product intended for strengthening the angles of composites, larger cracks, holes, etc.
- **kelteks Repair System** is equipped with sandpaper for substrate preparation and Peel Ply fabric. Peel Ply fabric is placed as a final layer on the laminate and allows work to continue without additional sanding.
- Inside you can find Polyester resin, Catalyst, and top quality acetone for cleaning.
- As we are many years present in this niche adding an additional Measuring cup, Plastic mixing stick, Resin application brush, and Protective Nitrile gloves was a natural thing for us.

ROVING FABRIC
2,0 m²

GLASS MAT
2,0 m²

EDGE PROTECTOR
5,0 m

PEEL PLY
2,0 m

POLYESTER RESIN
0,75 L

CATALYST
10 ml

ACETON
0,25 L

SAND PAPER
10 x 20 cm

GLOVES
NITRIL

PLASTIC MIXING STICK

BRUSH

MEASURING CUP
1,0 L

Made for You...
From professionals
for professionals!

The only fiberglass repair kit on the market that contains everything you need to get your work done!

Fiberglass is a very appreciative material for shipbuilding. And another great advantage is that almost any damage to fiberglass boats can be repaired.

kelteks Cargo System

is the solution based on our long-term industry experience. It is suitable for heavy loads and non-standard sizes because of its easily collapsible sidewalls. The heavy-duty construction of the container keeps fragile cargo protected and secured into position during transportation or when stored in warehouse.

kelteks FormMat

is an innovative three-layer complex with a middle layer of fleece intended for fast and even impregnation of laminate. High volume fabrics without chemical binders for better resin flow & final surface finish. A volumized complex is used as a specific solution for various applications.

kelteks UD Reinforcement

Unidirectional fabrics are a composite reinforcement designed for applications where high additional strength and reinforcement in only one direction is required. UD reinforcement offers the ability to place continuous fibers in optimum quantity, either a 0° (warp) or 90° (weft) axis.

kelteks Woven Roving

is most suitable for applications where thickness and strength are required and provides the most economical solution for improving straight and increasing the glass content of laminates. It is a reinforcement made from direct, assembled, or texturized fiberglass roving weaved into fabric.

kelteks Combimat

is the complex reinforcement made of woven roving and chopped strand fibers bonded together by stitching. Connecting the layers without chemicals dramatically improves the bonding between reinforcement and matrix during the lamination process.

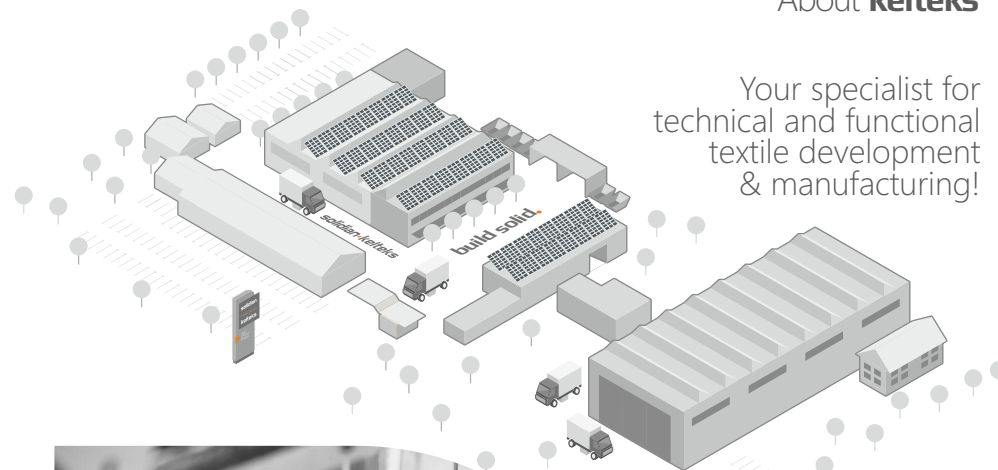

kelteks Complex

is the combination of two or more reinforcement layers, connected by a special needling technology. Adding epoxy, vinyl ester, or polyester matrix, creates a perfect composite for a variety of applications such as shipbuilding, automotive, sports & leisure, and other industries.

About **kelteks**

Your specialist for technical and functional textile development & manufacturing!

More than 30 years of experience in the composites industry as a manufacturer and developer of high-tech technical textile reinforcements for a large variety of applications. Our field of expertise is the large-scale production, with attention to every detail, of technical fibers such as carbon fibers, glass fibers, basalt fibers, etc., utilizing state of the art machinery and technology.

We are a family owned business and we are proud of the long experience of our 350 well trained, highly educated, and dedicated technical experts that ensure the best products and services for you. You can rely on us to be your partner for the complete value chain of your product so that you can focus on your own business. Our 3 factories are located in the heart of Europe in beautiful Croatia, from where we supply our industrial customers in more than 30 countries. It goes without saying that we are certified according to DIN EN ISO 9001:2015 and DIN EN ISO 14001:2015
